FILING INSTRUCTIONS:

This directive supersedes WIA Directive WIAD05-14, dated February 23, 2006, and finalizes WIA Draft Directive WIADD-114, issued for comment on April 11, 2006. Retain this directive until further notice.

BACKGROUND:

The State is required by federal regulations to submit accurate financial reports to the Department of Labor (DOL) on a quarterly basis. As such, the State is issuing this directive to provide essential information along with the appropriate financial reporting forms. These new forms provide for reporting of cash and accrued expenditures along with other standard information. Submittal dates for quarterly reports are identified in the "Quarterly Reporting Requirements" section of this directive. Submittal dates for monthly reports are identified in the "Monthly Reporting Requirements" section of this directive.

POLICY AND PROCEDURES:

Definition of Terms

Accrual Basis of Accounting—The accounting basis wherein revenues and expenses are recorded in the period in which they are earned or incurred regardless of whether cash is received or disbursed in that period. If the subgrantee records are not normally kept on the accrual basis of accounting, then the subgrantee must develop accrual information through analysis of documentation on hand.

Accrued Expenditures—The charges incurred and recorded, but not yet paid for, during a report period requiring the provision of funds by the grantee or subgrantee for (1) goods and other tangible property received, (2) services performed by employees, contractors, subgrantees, subcontractors, and other payees, and (3) other amounts becoming owed under programs for which no current services or performance is required, such as annuities, insurance claims, and other benefit payments.

Cash Expenditures—An actual disbursement of funds for goods and services that have been received. Cash expenditures do not necessarily equal the amount of cash drawn.

Cash Match—For all subgrant awards effective on or after January 1, 2006, cash match is a reportable item when it is a requirement for receipt of a grant. Cash match may be required in certain Solicitation for Proposals (SFP) that the Employment Development Department (EDD) issues and is documented by a project specific letter of commitment from the donor. It is a non-WIA contribution of funds made available to the subgrantee, to be used specifically for project activities. The awarded subgrantee has control over and disburses these funds. Examples include: non-WIA money received from employers, foundations, private entities, local governments, etc.

All match contributions will be accepted as part of the subgrantee's matching requirement if such contributions meet the following criteria:

- The match contributions are verifiable using the subgrantee's records.
- The match contributions are necessary and reasonable for proper and efficient accomplishment of the project or program objectives.

CFDA Number—The number assigned to a federal program in the Catalog of Federal Domestic Assistance (CFDA). The CFDA number 17.258 is used for Adult programs, number 17.259 is used for Youth programs and number 17.260 is used for Dislocated Worker (including Rapid Response) programs. The clientele being served will determine which CFDA number to use when funded from the Governor's Discretionary Account (15 percent). For example: Adult clientele use 17.258, Youth clientele use 17.259 and Dislocated Worker clientele use 17.260. If serving a combination of clientele with 15 Percent funds then revert to using 17.260.

Customized Training—This training, as defined in WIA Section 101, is designed to meet the special requirements of an employer (including a group of employers); is conducted with a commitment by the employer to employ an individual on successful completion of the training; and for which the employer pays for not less than 50 percent of the cost of the training.

Grant Code—The three-digit code that identifies a particular allocation. The Workforce Investment Division accounts for each allocation by grant code. Therefore, several grant codes could exist within a subgrant.

Individual Training Account (ITA)—As described in Title 20 CFR 663.410, an ITA is an account established on behalf of a participant. The ITA allows an adult or dislocated worker to purchase training services from eligible providers. An ITA is considered to be an obligation at the point the participant actually enrolls in the training program. The obligation must be accrued/expensed as the training takes place and reported on the "training payments" line on Attachment 1. Prior to enrolling in the training program, the ITA is not considered an obligation or expenditure. Contracts for services may be used instead of ITAs for on-the-job training or customized training (defined in WIA Section 101), when the local board determines there are an insufficient number of eligible providers in the local area to accomplish the purposes of a system of ITAs, or when the local board determines there is a training services program of demonstrated effectiveness offered in the local area to serve special participant populations that face multiple barriers to employment. Refer to WIA Section 134(d)(4)(G)(ii).

In-Kind Contributions—For all subgrant awards effective on or after January 1, 2006, In-kind contributions are reportable items when it is a requirement for receipt of a grant. In-kind contributions may be required in certain SFPs that EDD issues. These contributions of non-cash resources are to be used specifically for project activities. Examples include donated personnel, services, or use of equipment or space.

All in-kind contributions will be accepted as part of the subgrantee's in-kind matching requirement if such contributions meet the following criteria:

- The match contributions are verifiable using the subgrantee's records.

- The match contributions are necessary and reasonable for proper and efficient accomplishment of the project or program objectives.
- The basis for determining the valuation of the in-kind contributions is documented.

Line Item within a Subgrant—This represents the way a LWIA/subgrantee will receive funds allocated from different sources. Each line item is identified by its own three-digit grant code, description and funding amount in the subgrant. This will allow each line item to be tracked separately. Each line item is independent from other funding and can have different operational dates. Therefore, a line item must be closed out once the term has ended even though the funds may not be fully expended. A line item must also be closed out if the funds have been fully expended and the term has not ended.

Needs-Related Payments—As described in Title 20 CFR 663.815, needs-related payments provide financial assistance to participants for the purpose of enabling individuals to participate in training and are one of the other supportive services authorized by WIA. Refer to WIA Section 134(e)(3).

Obligations—An obligation is a formal contractual commitment for the amount of orders placed, contracts and subgrants awarded, goods and services received, and similar transactions during a funding period that will require payment by the recipient or subrecipient during the current or future reporting period. Cash expenditures are an obligation for a good or service that has been received and paid for within the report period. An accrued expenditure is an obligation for a good or service that has been received within the report period, but has NOT been paid. An unliquidated obligation is a formal contractual commitment for a good or service that has NOT been received and has NOT been paid for within the report period.

Program Income—The income received by the local area or subgrantee directly generated by a grant support activity, or earned only as a result of the grant agreement during the grant period. Program income minus the costs generated from those activities equals net program income. At this time, the net program income method used in accounting for revenue and associated costs must be used in the WIA program. Interest income earned on funds received under WIA is included as program income.

Stand-in Costs—Stand-in costs are costs for the program paid for with non-federal costs resulting from an audit. Stand-in costs must come from the same year as the costs that they are proposed to replace and they must not cause a violation of the administrative or other cost limitations. These costs must be included in the appropriate expenditure reports if they will be used at a later time. Refer to Title 20 CFR 667.300(c)(2).

Supportive Services—These are services, provided directly or through cash assistance that enable an individual to participate in the WIA program. Supportive services may only be provided to individuals who are participating in core, intensive or training services and unable to obtain supportive services through other programs providing such services. Supportive services may only be provided when they are necessary to enable individuals to participate in Title I activities. Supportive service costs must be reported in the cost category where the expense was incurred. For example: supportive services given during the core registration phase will be reported on Section V Line 2 “Core Reg Services” of Attachment 1.

Training Services—Training services must be reported on Attachment 1 in one of the two categories as shown below:

Training Payments/Tuition—This category represents the price paid for tuition or instruction. These payments of funds are for participants to attend LWIA approved classroom instruction or other training opportunities. Training payments include the use of ITAs for eligible training provider list approved programs. Training payments can also include payments for contracted services for customized training and on-the-job training.

Other Training Services—Any training services not identified as a training payment. Examples are in-house staff providing training (where a certificate is not issued), training materials, and supportive services that enable a participant to attend training.

Unliquidated Obligations—Unliquidated obligations are the dollar amount of formal orders placed through purchase orders, contract delegation orders or contracts and subgrants awarded that are to be paid at a future date. Unliquidated obligations are the amount of obligations committed to by the subgrantee for which the goods or services have not been received within the report period and for which an outlay (cash) or an accrued expenditure has not been recorded.

Voucher—A voucher is a document that is exchangeable for training services.

WIA Summary of Expenditures Report—A state-designed report that provides data elements for LWIA/subgrantees to submit expenditures and other reportable items on an accrual basis.

QUARTERLY REPORTING REQUIREMENTS

All WIA grant recipients are required to report expenditures on an accrual basis and must submit quarterly expenditure reports. This is a federal requirement. Quarterly expenditures (including accruals) and obligations must be reported on a cumulative basis and a separate expenditure report must be filed for each line item or grant code.

The expenditure format shown in Attachment 3 is to be used for Rapid Response funds (grant codes 526, 540, and 541). This format will be effective beginning with the July 1 through September 30, 2006 report quarter. The expenditure format shown in Attachment 4 is to be used for Youth funds (grant codes 301, 302, 303, 304). The expenditure format in Attachment 1 is to be used for the reporting of all other WIA funds. In the Attachment 1 format, all subrecipients are required to report expenditure amounts identified for lines 1, 2, 3, 4A, 4B and 5 of Section V “Cumulative Expenditures (Program).” This requirement applies to incentive funds and projects funded with Special Grant funding (i.e., SSN Navigator and any other Special Grants). Projects funded with National Emergency Grant (NEG) funds must also report expenditures for core self services, core registration services, intensive services, and training services.

As of December 31, 2004, reporting period, subrecipients with NEG funds must also complete Section VIII. The submission of information provided in Section VIII is a requirement of the DOL. If no financial activity has occurred for any of these lines, a zero value still has to be entered and the total of Section VIII must match the total reported for Section V.

Grant recipients are responsible for ensuring all reports required by the State are submitted on time and the data reported is complete. The time limit for the expenditure of these funds is specified in each officially signed subgrant agreement, including subgrant award modifications.

When filing quarterly financial reports LWIAs/subgrantees may find any one of the following situations has occurred during a reporting cycle. Quarterly reports must be filed as follows:

1. If funds were placed in a subgrant prior to the close of a quarter and no financial activity occurred since the project started then a “zero” report must be filed. A “zero” report means the expenditure report will contain all zeroes. A “zero” report is filed until financial activity occurs. Those entities linked to the Job Training Automation (JTA) system must use the “Enter WIA Summary of Expenditures” (EXPD) selection. Entities not linked to JTA must manually complete the EXPD form attached to this directive or download a copy from the EDD Web site. The report is then to be submitted by mail or fax. The fax number is (916) 654-9586 or (916) 654-9657. The mailing address is provided below.
2. If financial activity occurred within the quarter, then a report must be filed reflecting cumulative expenditures (including accruals) from the effective date of the funding through the end of the report quarter. Those entities linked to the JTA system must use the EXPD selection. Entities not linked to JTA must manually complete the EXPD form attached to this directive or download a copy from the EDD Web site. The report is then to be submitted by mail or fax. The fax number is (916) 654-9586 or (916) 654-9657. The mailing address is provided below.
3. If financial activity occurred in prior quarters but not in the current quarter and a closeout report has not been filed, a report is still required. This also includes any line items of funding that are fully expended prior to the term end date. Report prior cumulative information (including accruals) when completing the current quarterly expenditure report. Those entities linked to the JTA system must use the EXPD selection. Entities not linked to JTA must manually complete the EXPD form attached to this directive or download a copy from the EDD Web site. The report is then to be submitted by mail or fax. The fax number is (916) 654-9586 or (916) 654-9657. The mailing address is provided below.

If the completed expenditure report is mailed then use the following address.

TO ENTER EXPENDITURE DATA INTO THE JOB TRAINING AUTOMATION (JTA) SYSTEM START WITH THE "EXPD" SCREEN (ENTER WIA SUMMARY OF EXPENDITURES). ENTITIES WITHOUT JTA ACCESS WOULD USE THE MS WORD VERSION OF THE FORM. (The automated JTA entries, such as "autofill" and "default," do not apply to the MS Word document.) THE FORM IS TO BE COMPLETED BASED ON THE FOLLOWING LINE ITEM INSTRUCTIONS. The instructions also identify the lines where entries are required when filing monthly reports.

ON THE EXPD SCREEN ENTER THE FOLLOWING:

Item	Line Item Instructions
